# **BULLBAR NUMBER PLATE MOUNT**

*Looking for a bullbar number plate mount that doesn't have to be permanently welded into place?*

*SLS Trucking has the answer. In working closely with several bullbar manufacturers we have developed a no weld, bolt on bullbar number plate mount.*

*Because our mount is securely fixed into place with hidden bolts and packers it can be positioned anywhere on the bullbar; in the centre, on the side, on the upper bar or on the lower.*

*We have designs to fit different sized pipes as well as a mount to suit the centre of a 5 post bullbar.*

*Volume pricing available.*
