

VORTOX AIR CLEANERS

When only the best will do

Strapped

Strapless

As the Australian distributor of Vortox Air Cleaners SLS has been modifying and fitting Vortox Air Cleaners for the Australian truck market for 7 years. While Vortox Air Cleaners highly polished stainless steel surface already has a very smooth appearance, SLS has gone a step further by developing an optional strapless mount bracket system that makes them look even better.

Vortox Air Cleaners significantly increase driver visibility and reduce cleaning time by eliminating the need for AC riser pipes. Not only do Vortox cleaners look great, they also provide the most efficient filtration on the market and can withstand the toughest Australian conditions.

Though some have tried to imitate, there is no match for a genuine Vortox Air Cleaner. If it doesn't have the Vortox logo, it's just not worth buying.
